Hi Jeff,

The one thing missing is the generator status. I will mark it as SQG State and VSQG for Federal. I will issue the number in around an hour after a meeting.

Please don't forget to send me the original.

Also left you a voicemail.

Thanks,

I thought I sent an email to you yesterday but apparently deleted it.

Attached is a draft of the form. We don't fill these out often enough to get good at it. Please take a look and then let's have a call to discuss. I am free until noon. Cell number below.

Thanks!

Hi Jeff and Madison,

I am just checking in to see if we still need the number because I haven't received anything yet?

Thanks,

Subject: FW: EPA/State ID New Notification Form

Iris:

Thank you! Madison is my new colleague and will assist me with getting this number. Please contact either of us if you have questions.

Madison:

Thank you, too! Iris provides generator ID numbers for removal and disposal work conducted in the State of Washington. After speaking with her and letting her know we are starting work next week, she graciously said she would expedite our request and further instructed that we need to fill out the attached form and email it back to her. Then we will need to send the signed original by US mail to the address listed. If you are uncomfortable signing the original, just email it to me and I will sign it. We typically sign generator forms "On behalf of EPA, (your name)".

Also, attached is a list of RCRA site contacts for each state (and the EPA contact for other required site numbers). This list of state contacts is over a year old and they change. If you have time, you could call and confirm these people are still the appropriate contact and then we would both have the correct numbers! Be still, my heart! I keep them in my phone contacts under "RCRA ID# (WA)", "RCRA ID# (AK)", etc. Handy people to know when you have to dispose of waste at an emergency response.

Ladies, thank you both again. Please call if you have questions.
